# Safely Does It

## Tuesday 23 March 2021

## A bit of housekeeping

- ✓ Do keep your video on if you can
- ✓ Everyone will be muted at the start
- ✓ Pop any questions in the chat as we go along and we'll be picking those up regularly throughout
- ✓ If you have a technical issue please put it in the chat
- ✓ We are recording this
- ✓ We'll be sharing the slides and notes afterwards PLUS our Zoom toolkit

**Phil Branigan**

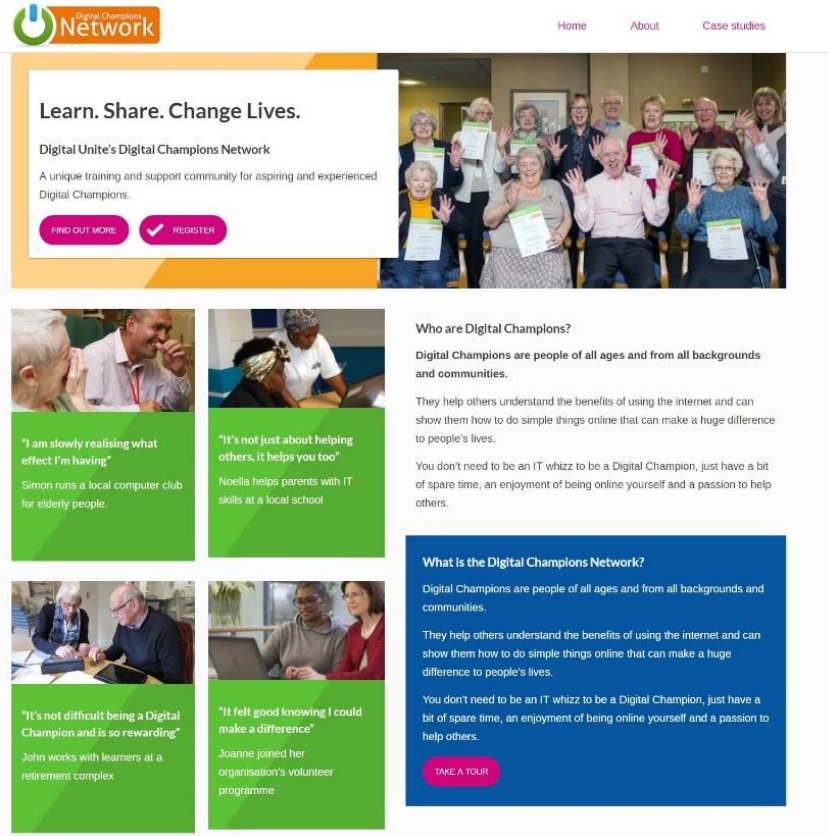

DU tutor and Digital Trainer

# Digital learning and skills through Digital Champions

The screenshot shows the Digital Champions Network website. At the top left is the logo with the text "Digital Champions Network". To the right are navigation links for "Home", "About", and "Case studies". The main content area features a large header with the text "Learn. Share. Change Lives." and "Digital Unite's Digital Champions Network". Below this is a sub-header: "A unique training and support community for aspiring and experienced Digital Champions." There are two buttons: "FIND OUT MORE" and "REGISTER". To the right of the text is a group photo of several people, mostly older adults, holding certificates. Below the header are four testimonial boxes, each with a photo and a quote. The first box says: "I am slowly realising what effect I'm having." Simon runs a local computer club for elderly people. The second box says: "It's not just about helping others, it helps you too" Noella helps parents with IT skills at a local school. The third box says: "It's not difficult being a Digital Champion and is so rewarding" John works with learners at a retirement complex. The fourth box says: "It felt good knowing I could make a difference" Joanne joined her organisation's volunteer programme. On the right side of the page, there is a section titled "Who are Digital Champions?" with a sub-header "Digital Champions are people of all ages and from all backgrounds and communities." followed by a paragraph: "They help others understand the benefits of using the internet and can show them how to do simple things online that can make a huge difference to people's lives." and another paragraph: "You don't need to be an IT whizz to be a Digital Champion, just have a bit of spare time, an enjoyment of being online yourself and a passion to help others." Below this is a section titled "What is the Digital Champions Network?" with a sub-header "Digital Champions are people of all ages and from all backgrounds and communities." followed by a paragraph: "They help others understand the benefits of using the internet and can show them how to do simple things online that can make a huge difference to people's lives." and another paragraph: "You don't need to be an IT whizz to be a Digital Champion, just have a bit of spare time, an enjoyment of being online yourself and a passion to help others." There is a "TAKE A TOUR" button at the bottom of this section.

25 years of digital inclusion through skills

The only organisation that specialises in Digital Champion training and support

At our heart is our award-winning Digital Champions Network:

- Used by hundreds of organisations in the UK
- Combines training and development with project management tools.

# Your burning questions

---

“How best to reassure your learner they are safe with you online?”

“What are the main things we need to be aware of?”

“If you notice a safeguarding concern in an online group session, what’s the best approach?”

“Special issues to bear in mind when helping learners with health and mental health resources and issues”.

“Best practice and guidance when remotely accessing people’s devices – pros and cons”

“How to keep older people safe without alarming them?”

“Digital security for the silver surfer”

“What are the main things we need to be aware of?”

“When a client is using a background effect that prevents us seeing beyond the patient?”

“New safeguarding issues and how to overcome them”

“How can you reassure clients that remote support is secure?”

“How to keep staff and volunteers safe”

“What is the best way for people to keep their passwords safe?”

“How do you make sure clients are using Zoom safely?”

“How do you ensure you don’t enter personal data?”

“Is there a safe way to view a client’s screen?”

# Today's session

What is safeguarding

The remote effect

Safeguarding the Digital Champion

Safeguarding the learner

Do's and Don'ts

Beyond the session

# Quick poll

---

**When was the last time you referred to or thought about your organisation's safeguarding policy?**

- In the last week
- In the last month
- In the last three months
- It's been quite a while
- So long, I can't remember
- What safeguarding policy?
- Something else

# The remote effect

- Digital Champions and learners can often be alone during their sessions
- Safeguarding situations during the session are behind closed doors
- Personal situations are more likely to be seen or heard
- At home, people feel more relaxed and can let down their guard
- Data can be handled more carelessly
- People may behave differently online in a way they wouldn't in person

# Some possible safeguarding scenarios

---

- Overfamiliarity
- Seeing passwords
- Keeping hold of data
- Sharing personal details
- Uncomfortable situations
- Welfare concerns

# Safeguarding the Digital Champion

---

## Prior preparation matters

---

**Practice** – set up procedures and timings

---

**Policy** – who to contact and how, if there's a concern

---

**Connecting** – ensure equipment is secure and up to date

---

**Safety in Numbers** – collaborative working is safer

# Safeguarding the Digital Champion

---

## During the session

---

**Listen** – everyone has a different style

---

**Educate** – things change rapidly, allow time for training

---

**Remain human** – mistakes happen

# Safeguarding the learner

---

- ✓ Make them aware of the organisation's policies
- ✓ Never give a personal assurance of confidentiality
- ✓ Stay professional at all times
- ✓ Be patient and listen, don't be afraid to repeat
- ✓ Expectations – let them know in advance if possible
- ✓ Follow up the session - don't leave learners hanging

# Useful teaching tools and how to use them safely

---

- ✓ Keep device software up to date – make sure it's appropriate
- ✓ Learn how to use tools e.g. screen sharing
- ✓ Where possible use private password protected sessions

FaceTime

Google  
Hangouts

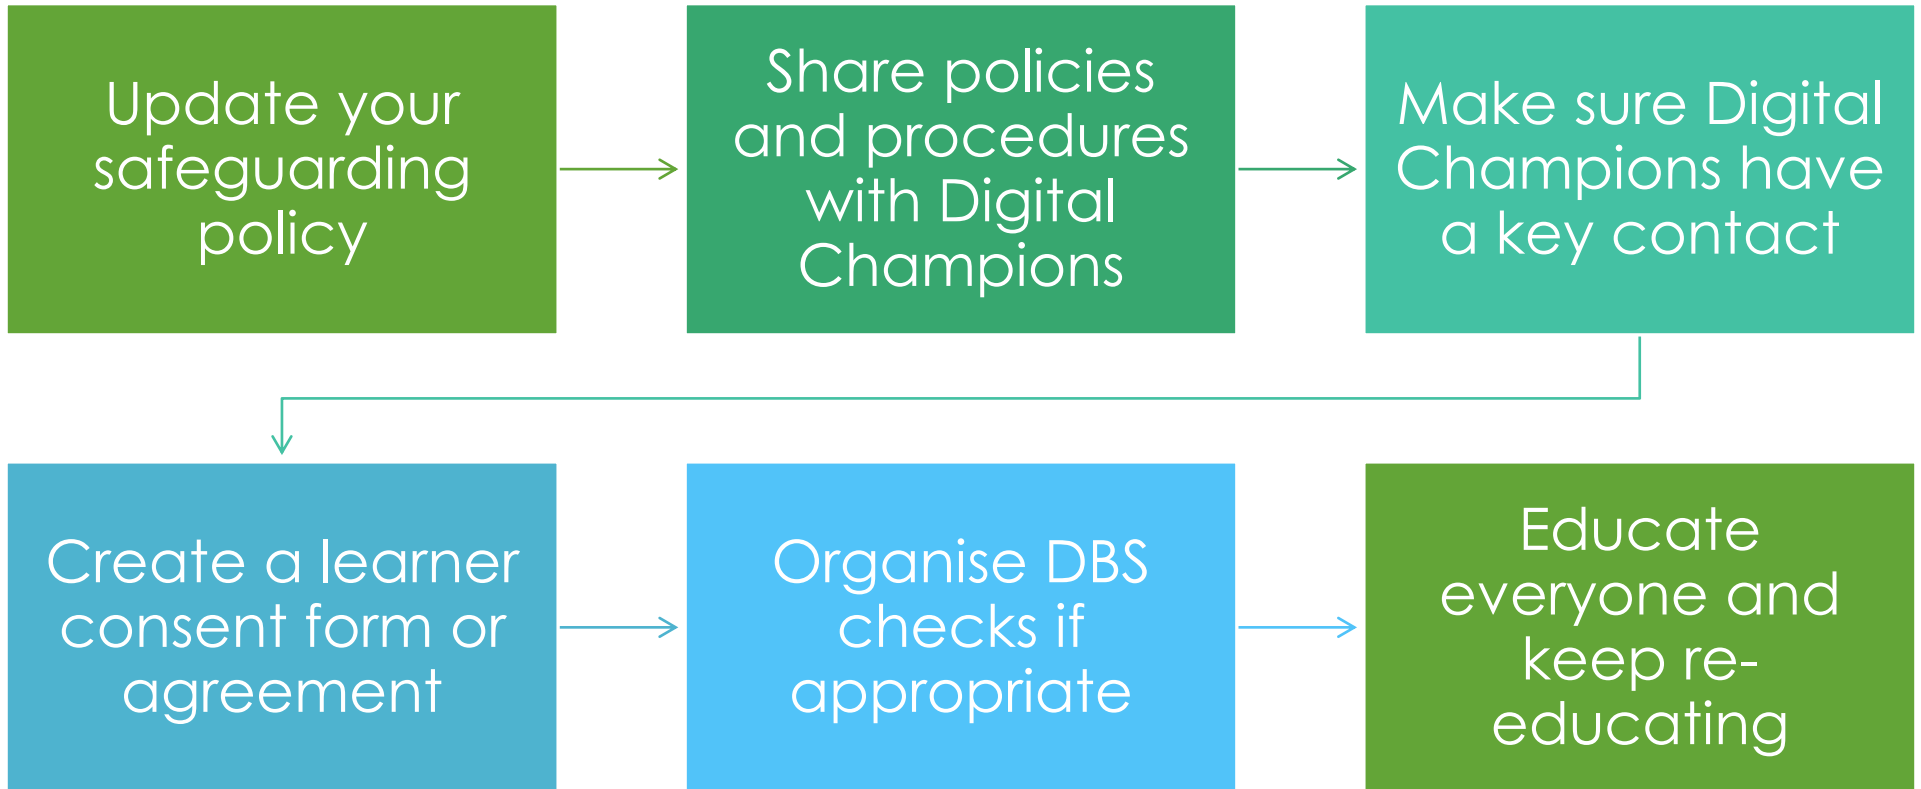

# Important Do's and Don'ts

---

- 👍 Do always keep up to date
- 👍 Do use reliable verified resources e.g. Gov.uk website
- 👍 Ask for help
  
- 👎 Don't assume/presume
- 👎 Don't be afraid of change

A green, multi-pointed starburst graphic with a white outline, containing text.

# Beyond the digital skills session

# healthwatch Islington

**Tales from the frontline**

---

# Healthwatch Islington

---

- **Recruitment** – due to this remote process and our commitment to safer recruitment, we refined our application form and interview questions. All successful candidates provide two references, get an enhanced DBS check and attend our 3 induction training sessions (including one on Safeguarding).
- **Training** – as part of our safeguarding training we look at case studies, some based on real life scenarios. We also focus on the ‘grey area’ around safeguarding and highlight how Digital Champions should record and report such situations
- **Boundaries** – during training we highlight the importance of boundaries to our Digital Champions. We don’t expect them to be available to learners outside of their scheduled sessions.
- **Confidentiality** – we talk to our Digital Champions about maintaining confidentiality while volunteering from home – using headphones, working in a private space, thinking about what is open on your screen if you are going to share your screen.

# Healthwatch Islington

---

- **Data protection** – working remotely means sharing more personal information via email etc. We only share necessary information about learners with our Digital Champions and this is always in a password protected file.
- **Keeping Digital Champions and learners safe** – Digital Champions do not use personal email addresses, phone numbers or Zoom accounts. We provide DCs with a sim and a centralized email address and zoom account which are monitored by staff.
- **Feedback and support** – both learners and Digital Champions complete feedback forms at the end of each session. We also offer all Digital Champions supervision and are setting up a Digital Forum. A staff member is always available during sessions & can be contacted afterwards.
- **Policies and procedures** – On top of our existing policies and procedures we have developed some simple dos and don'ts documents for our Digital Champions and learners to illustrate the remits of the support we offer

***“We didn't think we could do this a year ago – but it can be done and we've had some fantastic feedback from our learners.”***

# Some useful resources

- [Digital Unite - guides on being a remote Digital Champion](#)
- [Digital Unite – choosing a password](#)
- [Digital Unite – using Zoom to provide digital skills support](#)
- [NCVO – Safeguarding](#)
- [NCVO – If you're worried](#)
- [Catalyst – Digisafe](#)
- [Gov.uk – Safeguarding and remote education](#)

# Another quick poll

---

Now, thinking about safeguarding, let us know what you might do next (you can choose more than one).

- Update my organisation's safeguarding policy
- Look at my organisation's safeguarding policy
- Check out the safeguarding resources shared here
- Talk to my team about safeguarding training for our Digital Champions
- Promote better safeguarding approaches for remote digital skills support
- Something else

# Time for questions
