1. Covid has indubitably accelerated the pace of digital transformation.
2. Digital service delivery no longer optional.
3. Creating and supporting digital service users critical.

A large, rounded blue speech bubble containing a quote in white text.

“The pandemic has emphasised even more the need to make our online services as accessible as possible, and to help people to use them. I think there is now greater awareness of the importance and social value of making sure our residents are digitally included.”

4. Sustainability, integration and scalability more important than ever.

A large, teal-colored speech bubble with a white border, containing a quote. The bubble has a tail pointing towards the bottom left.

“Rather than being a standalone service, digital inclusion is now recognised as a cross-cutting essential element for employment support, financial inclusion and wellbeing support.”

91%

will be providing remote digital skills support ongoingly

88%

plan to run blended activities ongoingly and into the future

“We see digital inclusion as essential for our residents to be able to participate in society. When Covid-19 hit, getting residents online became the number one cross-cutting priority for all the services we run in the Community Investment Team.”

Hexagon

“Supporting people with learning disabilities to use digital technologies had been a missing part of the picture for years. Covid forced everyone suddenly to shift to remote working, and the issue became urgent. We had to address it.”

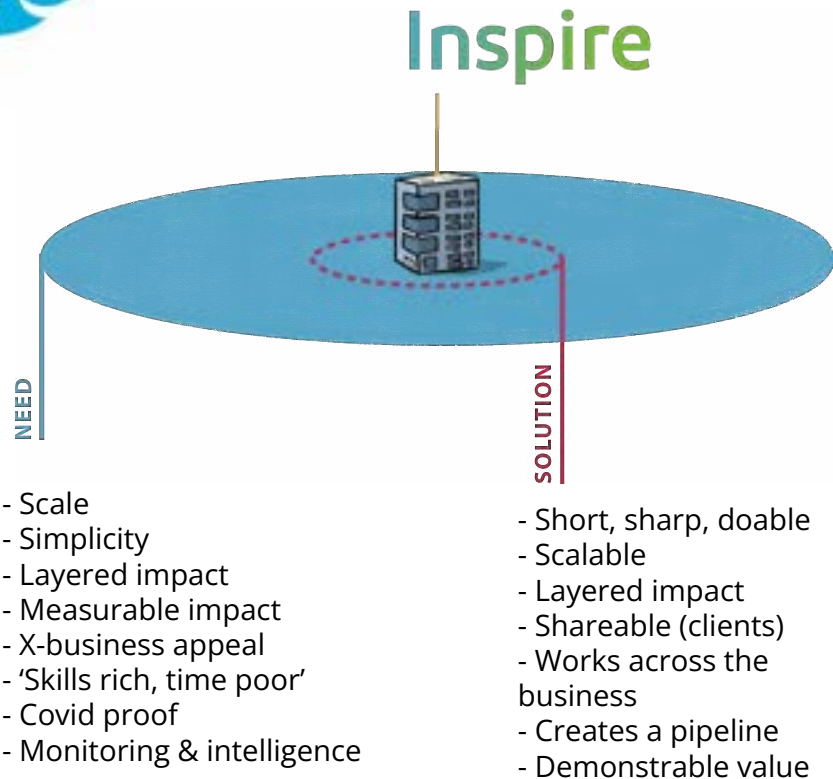

“We will motivate and support citizens to access health services online so they can participate in their health and care using digital services that meet their needs. We will develop digitally enabled care pathways in ways which increase inclusion.”

- Standardised training offer
- National training offer
- Customisation for specific cohorts
- Customisation to match local needs
- Ability to join up with local DI orgs/initiatives
- Integrated monitoring and intelligence
- 7 pilot areas testing both geo-responsiveness AND cohort/ audience responsiveness
- New content/guidance on national resources
- Flex around 'who' is a DHC – volunteers, clinicians, front line staff
- Continual review of data

“We are a technology company; we help large organisations to deliver digital transformation, so we feel a strong social responsibility to ensure no one in society is left behind in this move to digital automation.”

Scale
