- Initial project scope and set-up sessions with you and your team.
- 6 days of project and strategic consultancy support from across our team, tailored to specific challenges and requirements, on demand, whenever you need it.

We also provide opportunities for our corporate clients to connect with our public service ones. For example, some corporate volunteers deliver workshops based around digital skills and awareness training to public sector organisations.

Additional Services

Inspire is "plug and play". As standard, we provide the support and resources you need to get your programme up and running. If there's anything else you want, we provide...

Workshop delivery: we make it easy for you to deliver these yourself but we can deliver them for you if necessary. **£275 for half day/ online delivery and £500 in person** (not including travel).

Additional project support: for example, practical delivery, monitoring and data and reporting. **£500 a day.**

Additional strategic support: for example around engagement, recruitment, strategic planning, strategic delivery, impact and evaluation **£750 a day.**

Adding sub-projects: it allows facilitators to organise different groups of learners into distinct groups, and therefore manage and monitor the data about each workshop distinctly. **£250 a project.**

If there's an addition you'd like that isn't here, let us know and we'll see if we can make it happen.
